

# Wherever You Are, Your Office Is With You - with the World's First Thin-Client Notebook for Enterprise Applications

**You're in the field. You need an application from your desktop back at the office...NOW. If only you had a notebook controlled from a central server so you could access all the information you need as if you were sitting at your desk—a Netbook thin client with all the power of a traditional PC.**

## NOW YOU DO.

The NoteBook 7500 is a wireless mobile ThinClient with all the connectivity features of a standard notebook computer, controlled from a single point of update and management. Finally, you have an ultra-powerful alternative to traditional PC notebooks, PDA's, and application-specific mobile devices—and powered by Microsoft Windows XPe to boot!

- **Be where you have to be.** Go wireless with WLAN capability standard. Access your enterprise servers, applications and database from the convenience of the conference table, warehouse, lobby or office. You're on the go – and your NetBook is to.
- **Communicate with whatever is available to you-wherever you are.** Equipped with wired Ethernet, modem, three (3) USB ports and a PCMCIA slot for options such as a 3G/WiMAX card, the NB-7500 gives you the connectivity your work demands. The NetBook may be ultra-light, but don't be fooled. The power is inside with an Intel 1.6 GHz CPU and 256MB RAM.
- **Rest assured your confidential information is secure.** It's all on the centralized server with one single point management, meaning nobody can access it-nor copy it to a hard drive, without your permission. Breathe easier. You're safe.
- **Cut costly maintenance from your budget.** Advanced design with low power consumption and Solid State storage for longer life = Your Money Saved. And, using VNC software remote management is a breeze. Click. Click. Done.
- **Say goodbye to local application updates.** All applications are centralized, meaning your network updates all workstations from one main location. No more complex boot server software installations. Just upgrade over the network using the latest Flash ROM technology (And get multiple feature sets to address specific requirements...anytime you need them).

The NB-7500 fits right into your IT Infrastructure supporting the latest TCP/IP, Microsoft RDP and Citrix ICA protocols..

For a free 15-point evaluation of your current network, call 866-792-2647 or visit [www.atlabsinc.com](http://www.atlabsinc.com). An expert technician will ask you a few questions and quickly determine if ThinClient is a viable option for you. It takes only 15 minutes and you don't have to give us your contact information if you don't want to. No unwanted mailings or phone calls. We respect your privacy.

# NetBook™ 7500

## The ultimate high-performance mobile and wireless XPe thin client notebook

### Hardware Specifications

<b>Processor</b>	1.6 GHz Intel CPU
<b>Memory</b>	256MB RAM standard
<b>Flash Memory</b>	512MB Disc On Module standard
<b>LCD Display</b>	14.1 inch XGA
<b>Local Resolution</b>	1024x768 at 32 bit color, Refresh Rate up to 75Hz
<b>VGA Port</b>	(1) DB-15 connector
<b>Keyboard Port</b>	PS/2 DIN connector
<b>Ethernet Port</b>	RJ-45 Port for 10/100/1000 Base T Fast Ethernet
<b>Wireless</b>	802.11b/g, Bluetooth
<b>Modem</b>	Built-in 56K modem
<b>Parallel Port</b>	(1) DB-25 connector
<b>USB</b>	(3) Type A 2.0
<b>Sound</b>	(1) microphone, (1) stereo line out, stereo speakers
<b>Battery</b>	Lithium Ion 6 Cell
<b>Power Supply</b>	Full range auto sensing 90-264 VAC
<b>Operating Temperature</b>	5-35 degree Celsius
<b>Humidity</b>	30% to 90%, non-condensing
<b>Dimensions</b>	315.0mm (W) x 262.0mm (D) x 19.0mm (H) 12.40" (W) x 10.31" (D) x 0.75" (H)
<b>Weight</b>	2.4 kg. w/Standard Battery & WLAN Module

### Software

<b>Operating System</b>	XP Embedded
<b>Network Protocols</b>	TCP/IP, DHCP, PPPoE, Dial-up, DNS client
<b>Server OS Support</b>	Microsoft Windows 2003/.NET Server, Microsoft Windows 2000 Server, Microsoft Windows NT 4.0 Terminal Server Edition, Macromedia Flash, Real Player
<b>Application Protocols</b>	Microsoft RDP, Citrix ICA
<b>Mgt. Software</b>	VNC
