

# At Last, Sharper Image Integrated Flat Panel Thin Client

**NetPanel™**  
**6500**

The NP-6500 fits right in to your IT infrastructure, supporting sharp video and crisp windows to access centralized applications over the network.

**Your corporate users demand a lot from their PC desktops. They want a sharp, crisp, flat display for viewing business applications and high definition videos. You like Zero maintenance and simple management.**

## GOOD NEWS! YOUR ALL IN ONE SOLUTION HAS ARRIVED

Speed, Security, Upgradeability along with low maintenance, it's what all users want and what the NP-6500 from AT Labs delivers. With an integrated 17" LCD panel, this new thin client delivers crisp video to the desktop, but at a substantially lower TCO than traditional networks. In fact, the NP-6500 has features beyond even some high end PCs – including PCMCIA slot.

- **Management Made Simple.** Centralized management is key to realizing the benefits of any Thin Client network. With AT Labs NP-6500 all applications are server based, meaning your network updates all workstations from one main location. Want to update remotely? No problem, using standard VNC or NetAdmin software the NP-6500 makes it easy for the IT staff to configure and duplicate local terminal settings.
- **Eliminate The Clutter.** With an integrated all in one design the NP-6500 takes up only as much space as the display screen. The small footprint design makes it ideal for the space constrained, but then who isn't in today's corporate environment. Forget about untangling cables that get in the way, AT Labs has the ideal solution.
- **Security.** AT Labs NP-6500 is the answer to today's world of hacker attacks and viruses. Data security is paramount to the success of any organization and compliance regulations such as Sarbanes-Oxley and HIPPA continue to drive this initiative. With the NP-6500 all data files and applications are on the server - one point of management and no local storage – rest easy knowing your confidential information is secure.
- **Maintenance.** Cut maintenance costs from your budget and reduce downtime with AT Labs NP-6500. Advanced design with low power consumption and solid state storage equals longer life and money \$\$ saved.
- **Manage remotely with no headaches.** Using VNC, or NetAdmin™ software, remote management is a breeze. Click. Click. Done.

**For a free 15-point evaluation of your current network, call 866-792-2647 or visit [www.atlabs.com](http://www.atlabs.com). An expert technician will ask you a few questions and quickly determine if a Thin Client is a viable option for you.**

# The Most Integrated Windows XPe Thin Client Has Arrived

## Hardware Specifications

|                            |                                 |
|----------------------------|---------------------------------|
| <b>Processor</b>           | 1.0Ghz                          |
| <b>Memory</b>              | 256MB expandable to 512MB       |
| <b>Flash Memory</b>        | 512MB expandable to 2.0GB       |
| <b>VGA Port</b>            | 1280 x 1024 at 32-bit           |
| <b>Display</b>             | LCD Panel                       |
| <b>LAN</b>                 | One 10/100 Base-T               |
| <b>Keyboard/Mouse Port</b> | PS2 mini-DIN                    |
| <b>Serial Port</b>         | One RS232C/ DB9                 |
| <b>Parallel Port</b>       | One DB25                        |
| <b>Smart Card</b>          | Optional                        |
| <b>USB</b>                 | Two                             |
| <b>Sound</b>               | 16-bit stereo, mini-mic         |
| <b>Power Supply</b>        | External, auto sensing          |
| <b>Dimensions</b>          | 13.4in H x 14.5in W x 3.8.0in D |
| <b>Protocol</b>            | Microsoft RDP & Citrix ICA      |

## Software

|                                  |  |
|----------------------------------|--|
| <b>Operating System</b>          | Windows XP embedded SP-2   |
| <b>Server Support</b>            | Windows 2000 advanced server, Windows 2003 w/term services, Citrix Metaframe   |
| <b>Web access</b>                | Full featured, Internet Explorer   |
| <b>Sessions</b>                  | Multiple, in Windows   |
| <b>Terminal Emulations Suite</b> | Optional   |
| <b>Network Protocols</b>         | TCP/IP with DNS, DHCP and PPP, load balancing supported by Citrix ICA, remote modem dial up with Citrix ICA, remote host connect via VPN |
| <b>Printing</b>                  | Local thru RDP & ICA, LPD  |
| <b>Mgt. Software</b>             | VNC, Altris remote management software   |
